

Vista® TX

The Vista® TX from Aspen improves patient care while saving time, money and storage space. With its innovative height adjustment technology, the Vista® TX is really six collars in one. The correct size is always at hand, reducing storage and inventory costs while improving patient care.

HCPCS CODE: L0174

Cervical Spine

Unique design provides unparalleled patient access through an enlarged tracheal opening while also providing effective motion restriction for all patients.

The innovative design allows for 6 sizes in 1 collar, reducing inventory, reducing waste with sizing errors and saving time.

Recovery Sciences

Cervical & Lumbar Spine Bracing

Uncompromising SUPPORT

Supporting the PATIENT

Through increased stability, enhanced motion control and optimal comfort, our complete line of spine bracing offers uncompromising support for all patient needs.

Supporting the CLINICIAN

A full-line of spine bracing, featuring known and proven brands, provides clinics and offices uncompromising support in meeting the needs of you and your patients.

TLSO Posture Extension

A therapeutic Postural Extension Orthosis, ergonomically designed to comfortably control and relieve acute pain often associated with osteoporosis, compression fractures, spinal stenosis, strain and excessive kyphosis

HCPCS CODE: Lo456

Cyberspine TLSO

Compressive support from two independent pulley systems with a unique linear adjustment capability providing stabilization and restriction. They brace may be customized per patient without the use of tools or accessory parts.

HCPCS CODE: Lo456

Premium Plus LSO

Providing spinal support from T9-S1, the rigid unibody frame allows for superior posterior support and is open over the surgical site. The rigid anterior and posterior panels ensure patient comfort and intracavitary pressure.

HCPCS CODE: Lo631

Tri-Mod Chairback LSO

Providing spinal support from T9-S1, the rigid unibody frame allows for superior posterior and lateral support and is open over the surgical site. The rigid anterior and posterior panels ensure patient comfort and intracavitary pressure.

HCPCS CODE: Lo637

SPINE Flex Plus

Providing support for mild lower back pain from L1 – S1. Dynamic panels comfortably contour and conform to patient's body structure. A single-hand adjustment controls support level and comfort for standing and sitting.

HCPCS CODE: Lo627

SI Belt

Providing conservative treatment of sacroiliac strain and arthritis. The simple design allows for significant reduction in SI joint pain and is excellent for post partum symphysis pubis dysfunction

HCPCS CODE: Lo621

LSO Low Profile

Providing support for mild lower back pain from L1 – S1. A single-hand adjustment controls support level and comfort for standing and sitting providing unmatched comfort, control and support

HCPCS CODE: Lo626
